*The purpose of the **Committee on Poultry and Other Avian Species** is to provide information and advice to the United States Animal Health Association on issues pertaining to the health of animals of the avian species and the hygiene of raw foods of avian origin. Specifically, the committee provides a representative forum for interested private and public sector individuals and organizations to:*

- (1) Study the science of the health of animals of the avian species and the hygiene of raw foods of avian origin and convey, through comprehensive committee reports, pertinent information regarding current issues in these areas.*
- (2) Advise, through recommendations and proposed resolutions, a means to unify, so far as possible, laws, regulations, policies and methods pertaining to the prevention, control and eradication of transmissible diseases of the avian species; and hygiene of raw foods of avian origin.*
