Dear Mr. Parr:

Thank you very much for your letter dated November 18, 2016, to our Acting Center Director, sharing Resolution Number 10: Laboratory Requirements for Program Disease Testing, which was approved at the 120th USAHA and 59th AAVLD Annual Meeting held in Greensboro, North Carolina.

We appreciate you sharing your Resolution with us. We would be happy to continue to discuss with you the possibility of establishing the working group you describe in your letter.

Please feel free to contact Dr. William Flynn, [William.Flynn@fda.hhs.gov](mailto:William.Flynn@fda.hhs.gov) as your plans progress and we look forward to discussing this with you in the near future.

Sincerely yours,

Susan Dewitt
